

# BETTER HEALTH IN JUST A FEW HOURS

EXECUTIVE HEALTH **SUMMER BASIC**

# Your Health, Your Summer Priority

The summer months bring heat, fatigue, and disrupted sleep — which makes them exactly the right time to check in on your health. Cleveland Clinic Abu Dhabi's Executive Health – Summer Basic is a comprehensive five-hour health assessment, designed for those who want more depth without committing to a full-day program.

With a dedicated physician guiding your visit and a **45-minute consultation** to review your results, this package covers the key markers of your overall health. If any findings require follow-up, you'll be referred to our world-class team of specialists.
