Cleveland Clinic Abu Dhabi Residency Training Program

What is Cleveland Clinic Abu Dhabi's residency training program?

Cleveland Clinic Abu Dhabi is a unique and unparalleled extension of US-based Cleveland Clinic's model of care, specifically designed to address a range of complex and critical care requirements unique to the Abu Dhabi population. Cleveland Clinic Abu Dhabi has five Centers of Excellence in the following Institutes: Heart & Vascular, Neurological, Digestive Disease, Eye and Respiratory & Critical Care. Other Institutes include Surgical Subspecialties, Medical Subspecialties, Emergency Medicine, Anesthesiology, Pathology & Laboratory Medicine, Imaging, Quality & Patient Safety, and Clinical & Nursing. In all, more than 30 medical and surgical specialties are represented at Cleveland Clinic Abu Dhabi.

The primary aim of Cleveland Clinic Abu Dhabi is to advance health care delivery through the provision of excellent patient care, world-class training programs, and the pursuit of innovation and research. Residency training programs are designed on a competency-based framework emphasizing reflective practice and specified educational outcomes. The curriculum utilizes innovative teaching methods and assessments to ensure that upon completion of residency training, physicians are equipped with the competencies required to address the health needs of a diverse patient population. Our distinguished teaching faculty represents experts and leaders in their fields and serve as significant resources and mentors to physicians in various levels of training. Cleveland Clinic Abu Dhabi's physician residency programs are recognized by the Abu Dhabi Department of Health and are seeking accreditation by the Accreditation Council for Graduate Medical Education International (ACGME-I). Upon successful completion of training, graduating physicians will be eligible to pursue credentialing, licensing and employment opportunities as specialists in their respective fields of training.

In addition to residency training, Cleveland Clinic Abu Dhabi has partnered with a number of local and international academic institutions including the Cleveland Clinic Lerner College of Medicine, Case Western Reserve University, NYU Abu Dhabi, Khalifa University and various others in multiple educational and research initiatives that serve to enhance the busy academic culture of the organization.

What are the objectives of the program?

- Provide trainees with extensive experience in the art and science of medicine in order to achieve excellence in the diagnosis, care and treatment of patients at Cleveland Clinic's standard of care.
- Guide and advise residents to develop their careers, achieve their goals and complete the prerequisites needed for the next steps in their career.
- Successfully graduate residents who will be able to master the ACGME core competencies throughout their career.
- Establish skills and attributes that practicing physicians should be able to demonstrate in order to graduate and excel in the field of medicine.
- Graduate a Board Certified Clinical Specialist as per the Abu Dhabi Department of Health regulations.

What are the benefits of the program?

- ✓ Enhance your professional expertise by enrolling in world-class, Cleveland Clinic standard graduate medical professional training programs.
- ✓ Pursue a pathway towards specialization in medical and surgical fields.
- ✓ Be taught by and meet world leaders from the Cleveland Clinic, Cleveland Clinic Abu Dhabi and other prestigious global medical institutes.
- ✓ Practice in a state-of-the-art facility pioneering medical firsts and innovation in the region.
- ✓ Learn the globally renowned, Cleveland Clinic patient-centered model of care.

How long are the programs and what specialties are offered?
