

# **Better health in just a few hours**

## Executive Health – Ramadan Basic

## Better health in just a few short hours

This Ramadan, in the spirit of giving the gift of health, Cleveland Clinic Abu Dhabi's Executive Health Program will be offering a basic version of their traditional program. The Executive Health - Ramadan Basic, is a more streamlined and compact health assessment, that still takes a personalized approach to your wellbeing, but over the course of five hours instead of a full day.

## Cover your basic health needs

You will have access to a dedicated physician, who will assess your individual needs and analyze your results through a [45-minute initial in-person consultation](#) to discuss your results. If you need further treatment, you will be referred to Cleveland Clinic Abu Dhabi's team of highly qualified, internationally respected specialists.

Our Executive Health – Ramadan Basic package includes:

- Physician consultation
- Variety of blood tests
- Nutrition consultation
- Body composition consultation
- Breathing test
- Electrocardiogram
- Visual acuity
- Stress test
- Pap with HPV (female >21 years)
- Mammogram (female >40 years)
- Urology Consult Yearly (Male >50 years)

Prices start from 7500 AED for the Ramadan Basic Program. Additional tests that may be added onto this package include a CT calcium score (if clinically indicated) and will incur an additional charge of 750 AED.

Whilst we encourage you to take advantage of this exclusive opportunity during the Holy Month, our Standard and Premium packages remain available to you at any time, including Ramadan.

To book your appointment, please call 02 501 9200
